### **DETAILED ACTION**

1. The following is an examiner's statement of reasons for allowance: The applicant has argued that the reference Gelbart has that the layer-frame 3 (in fig. 1b) consists uniquely of a single part which lacks the flexibility allowing it to be displaceable between deformed and extended positions via a movement and deformation. As such, it does not permit a displacement, but only a deformation of the ribbon 1. Gelbart clearly states at col. 2, lines. 55-56 that application of a potential may only deform the light receiving member 1. The examiner agrees with these arguments and that the ability to deform and displace the light receiving member is not shown or suggested by the prior art.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Richard Hanig whose telephone number is 571-272-2329. The examiner can normally be reached on M-F: 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ricky Mack can be reached on 571-272-2333. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
